GENPRO Technologies (P) Ltd. is a Software Consulting & Development startup focused on Product Development around Open Source Platforms.

We are a group of zesty, passionate Open Source evangelists keen on creating a difference through technology which is why you will find many of our solutions targeted towards the largely uncatered Small & Medium Enterprises.

We have an inspiring work culture with strict norms on Quality & adherence to processes, inculcated by our promoters having an enriching experience with the Indian IT major TCS.

Given our exhaustive bouquet of services, we are a one-stop shop for all your technical needs. Hence having us as your service provider brings down the TCO (Total Cost of Ownership) for any technical business solution; making it a profitable value proposition for your business.
